

TECHNOPLUS+ ICE & WATER

TECHNOPLUS+ Ice & Water barrier is a high strength self-adhered roof underlayment that offers a 5-Year warranty. Tailored for the most demanding projects, it can withstand exposure for 90 days without buckling or curling when damp. It's high-temp rating makes it an ideal choice for any project.

PRODUCT SPECIFICATIONS

Roll Size	2 SQ
Length	66.67'
Width	3'
Rolls/Pallet	25
Pallets/Truck	28
Rolls/Truck	700
UV Exposure	90 Days
Warranty	5 Years

CODE APPROVALS

ASTM D1970	Yes
Florida Product Approval	FL46441
Code Listed	NER-APT-001
Approved for Hi-Temp Installation	Yes
Miami Dade Approved	Yes

TECHNICAL SPECIFICATIONS

	Product Specifications	Test Method
Color	Black	
Thickness	Pass	ASTM D5147
Adhesion to Plywood	Pass	ASTM D903 / ASTM D1970
Thermal Stability	Pass	ASTM D1204 / ASTM D1970
Tear Strength	Pass	ASTM D4073 / ASTM D1970
Moisture Vapor Permeability	Pass	ASTM E96
Self Sealability Around Nail	Pass	ASTM 1970 / ASTM D7349
Unrolling	Pass	ASTM D5636 / ASTM D5147 / ASTM D1970

This product is qualified for use as a component of a FORTIFIED-eligible roof system. Use of this product does not guarantee a FORTIFIED™ designation. To be eligible for a FORTIFIED designation, a complete roofing system (components and accessories) must meet the requirements detailed in the FORTIFIED Home™ Standard and be installed by a certified FORTIFIED Roofing Contractor. Products that are required to meet the standard include but may not be limited to: roof coverings, attic ventilation components, a qualified sealed roof deck system, roof underlayments, edge metal and appropriate fasteners for all mechanically fastened components. Documentation for all products and their installation is required. Additional requirements, eligibility criteria and restrictions apply. See the current FORTIFIED Home standard at <https://fortifiedhome.org/technical-documents/> for details.
