PROTECTION AND COMFORT

FEATURES & BENEFITS

NuTech Lab Coats are strong, yet soft to the touch and provide excellent protection without sacrificing comfort. This microporous composite material is breathable and lightweight offering comfort and protection for the wearer all day in a broad range of non-hazardous applications. The non-confining tapered collar is designed like a shirt collar for style and comfort and the five-snap closure is to provide full coverage without gaps. The length is appropriately adjusted to size, to provide additional coverage for the wearer.

Construction Details:

Five-snap closure, tapered collar, elastic wrist, 3 pockets and strong, stress-resistant serged seams.

KEEP WEARERS COOL, COMFORTABLE AND PROTECTED

FEATURES & BENEFITS

The strong, lightweight and breathable ComforTech material gives your personnel excellent protection from fluids, light chemical splash, particles and biologicals without compromising their comfort. This high quality microporous composite fabric exhibits a low particle count and an excellent high filtration efficiency. For cool, comfortable, all-day wear, this material readily dissipates heat while effectively meeting all your Controlled Environment needs. The length is appropriately adjusted to size, which provides additional coverage for the wearer.

Construction Details:

Five-snap closure, elastic wrist, tapered collar, 3 pockets and strong, stress-resistant serged seams.

VERSATILE SMS PERFORMANCE

FEATURES & BENEFITS

AlphaGuard multilayer SMS material is soft and breathable. Additionally, AlphaGuard lab coats are clean, durable and has an excellent filtration efficiency rating in an effort to provide your teams with a comfortable and performing garment while meeting your Critical Environment protocols. Superior vapor transmission performance wicks perspiration through the fabric to keep workers cool and comfortable.

The tapered collar is stylish and comfortable and the five-snap closure is designed to provide full coverage without gaps. The length is appropriately adjusted to size, which provides additional coverage and protection for the wearer.

Construction Details:

Two styles and two colors (white and blue) to choose from: knit wrist or elastic wrist, blue or white. Both feature strong, stress-resistant serged seams, five-snap closure, tapered collar, and three pockets.

SUITABLE FOR USE IN CONTROLLED ENVIRONMENTS

FEATURES & BENEFITS

ComforTech frocks provide an excellent filtration efficiency rate and protect wearers from light chemical splash, particles and biologicals while keeping them cool and comfortable. These frocks are constructed using a high quality microporous composite fabric that is breathable, lightweight and strong. The ComforTech frock is also durable and will effectively meet your controlled environment needs.

A mandarin style snap collar adds style and comfort while providing additional coverage for the chest and neck area. ComforTech frocks are cut and sewn to an appropriate length to ensure full coverage and with the nylon zipper option, which adds another level of particle holdout and protection.

Construction Details:

Two styles to choose from: snap or zipper close. Both have elastic wrist with a snap mandarin collar, no pockets and strong, stress-resistant serged seams.
